

## About BFFL Co

BFFL Co was founded in 2011 by Elizabeth Chabner Thompson, MD, MPH, a radiation oncologist trained at Johns Hopkins University School of Medicine and the Harvard Hospital Systems. After many years of working as a clinician, and after undergoing surgery herself, Dr. Chabner Thompson realized that in order to recover, patients need more than flowers and chocolate. They need someone to “pack their hospital bag” and prepare them in a way that preserves their dignity and makes them feel cared for, comfortable, and empowered.

BFFL Co's products and services improve the patient experience before, during and after hospitalization in a way that promotes healing, preserves dignity and enhances recovery. BFFL Co's product line includes the award-winning BFFLBag® recovery kits, bras and other garments, amenities kits, rehabilitation tools, and much more.

## What are BFFLBags®?

BFFLBags® are recovery bags pre-packed with medical, personal care and other products designed to help patients recuperate from cancer and other surgeries or treatments. Unlike the disposable plastic or nonwoven bags of supplies sent home from most hospital stays, the brightly-patterned mood-lifting bags are made of stain-resistant high-quality pack cloth, and rest upon metal feet, not the hospital floor. BFFLBags® contain all the essentials for a particular surgery or treatment, so they are a great time-saver, and help reduce pre-surgery stress. They've been featured on television and in numerous fashion, parenting and lifestyle magazines.

There are almost a dozen different BFFLBag® styles serving men and women after surgery, and women after childbirth. All are available for purchase at [www.bfflco.com](http://www.bfflco.com). Bags come carefully wrapped in tissue and are accompanied by a hand-written note card. In addition, 15% of BFFLBag® profits is donated to a cause-related charity.

## The Prostate BFFLBag®

The Prostate BFFLBag® was designed to provide prostate surgery patients with everything needed for a smooth recovery.

Each high quality designer duffel bag contains:

- Axilla•Plla® comfort pillow
- Collapsible water bottle
- Toiletries kit
- Amusements/comfort pack
- TENA® protective underwear
- Newspaper bag for discreet disposal
- Incision care kit
- Arm extension grabber
- Organization tools

“The BFFLBag made things so much easier for my dad as he recovered from his prostatectomy, and took a lot of stress out of the process. We were able to spend time with him instead of run around to drugstores looking for supplies. The incontinence briefs and disposal bags were a big help, and a clever solution to a delicate problem.”

- Nancy T.
